

## Choose Your Own Adventure Instructions

Cut out the instructions and place them at stations around your meeting room. Split students into small groups and play the game, where choices have to be made at each location. Teams will need to make decisions quickly in order to finish the game. You may need more than one set of equipment for each station if there are many students and you have more than 5 teams.

When a team has won, debrief the game. What were some difficult choices? What were easy ones? Was there a choice you wish you hadn't made?
